PEACE PACT IS

BAKERS FAVOR EMBARGO
ON FOOD PRODUCTS

(By Associated Press.)

COLUMBUS, Ohio, Nov. 18.—Members of the executive committee of the National Association of Master Bakers decided at a meeting here yesterday to take a poll of public sentiment on the question of an American food embargo. Jay Burns, former president of the association, left for Chicago to arrange with the secretary to secure petitions through all local organizations of the association asking the government to establish an embargo.

the members of the association have nothing to gain personally by the embargo but expect to secure the expression of the consumers in the interest of service, and in case the poll indicates a public desire for an embargo the association will campaign to secure it. If the expression opposes the embargo, the bakers say they will adjust their prices to meet the increasing price in wheat.

Another advance in the price of bread will be necessary, it was predicted by members of the committee, before January 1.

BLOOD LUST OF BANDIT VILLA
WREAKED ON FOREIGNERS
IN THE CAPTURE OF PARRAL

(By Associated Press.)

EL PASO, Nov. 18.—From a Chinese refugee from Parral, United States government agents have received a report that all foreigners remaining in Parral, exclusive of five who are known to have left for Culiacan and thought to have arrived there, have been killed by Villa bandits. Those known to have been killed include at least six Americans, all the German residents, numbering

at least eight, together with their families, and all Chinese, Arabs and Hebrews.

Of the foreigners believed to have been in Parral when Villa entered, officials here say, there were at least five and probably six Americans. Five of the eleven Americans left two days before the town was evacuated and reached Culiacan, a message received by the Alvarado Mining and Milling company here states.

Chinese refugees reported that Villa is in possession of the mine of Santiago. Hambleton, British vice consul at Parral, who left at the time of the general exodus of foreigners and closing the consulate, also brought a report that Villa has ordered the natives to work all silver mines of foreign mining companies in the Carral district and sell the silver.

Deutschland Libeled For
Loss of Tug and Crew of 5

(By Associated Press.)

NEW HAVEN, Conn., Nov. 18.—Papers in a libel action to recover for the loss of the tug Thomas A. Scott, Jr., against the German undersea merchantman Deutschland, were filed in the United States district court today on behalf of the owners of the tug. The value is given as \$12,000.

The collision, which caused the Deutschland to abandon her return voyage to Germany almost at its outset yesterday morning, was the subject of federal investigation. The United States inspectors of steam vessels, headed by Captain W. E. Wilby, heard through witnesses of the conditions under which the submarine, slipping out of the harbor in the darkness so that she might submerge in neutral waters before daylight, ran down the tug which was acting as her protector off Race rock, just outside this port. The testimony came from Captain Paul Koenig of

the Deutschland; from F. W. Krapohl, his chief officer, and from Hans Klese, his chief engineer. It was given in secret, but it became known through statements outside the chamber that the collision was an accident.

Survivors who would discuss the matter were agreed that it was due to a combination of swift currents, which carried the tug off its course

WHOLE WORLD
FACES FAMINE

(By Associated Press.)

ROME, Nov. 18.—Rigid economy throughout the world in the consumption of food in view of deficient crops and the extraordinary requirements of European armies, is urged by the International Institution of Agriculture, which made an extensive report

FORTY CENTS A DAY
WILL FEED A FAMILY

(By Associated Press.)

CHICAGO, Nov. 18.—John D. Robertson, health commissioner, who has started a high cost of living investigation with a view to showing Chicagoans how to live on forty cents a day, is planning a "diet squad" to prove his contention that forty cents a day is sufficient for good and wholesome food. It is expected the plan will be adopted at a meeting of officials today.

Dr. Robertson purposes selecting twelve persons from his department who shall be fed for two weeks on a

diet recommended by him. Weight and general conditions of the subjects are to be taken before the dieting begins and after it is ended. Six men and six women will comprise the "diet squad," a room at the health department will be utilized, and food and a cook will be provided by the department.

"No reason why people should not live on forty cents a day, and I purpose demonstrating the fact," the doctor said. "I once fed my family of eight for five days on \$3.81."

WESTERN FARMERS OUTWIT GOVERNMENT CROP EXPERTS IN MAKING REPORTS

(By Associated Press.)

NEW YORK, Nov. 18.—The assertion that western farmers underestimated the crop reports submitted by the federal government, thereby forcing up the price of wheat, potatoes, onions and cabbage, is the latest contribution in the high cost of food investigation here. The charge was made by Commissioner of Weight and Measures Hartigan, who just returned from a tour of 29 states, undertaken to determine the reason for the high cost of food. Investigations convinced him, he said, that the government estimate of the wheat crop was based on statistics furnished by farmers "who knowingly concealed at least 25 per cent of the wheat crop."
